PROFESSIONAL SUMMARY

Results-driven Software Developer about 4 years of experience in full-stack web development. Skilled in React.js, Vue.js, Node.js, Next.js, TypeScript, and modern frameworks. Experienced in building high-performance, SEO-optimized, responsive web applications, real-time systems, and reusable components. Strong in Agile development, Git, and cross-functional team collaboration.

TECHNICAL SKILLS

- **Programming Languages:** C, JavaScript, TypeScript, Node.js
- **Front-End:** React.js, React Native, Next.js, Vue.js, Nuxt.js, Angular, Tailwind CSS, Bootstrap, CSS
- **State Management:** Redux, VueX, React Atoms, React Query
- **Back-End / APIs:** Node.js, Express.js, MongoDB, MySQL, GraphQL, Firebase
- **Tools & Platforms:** Git, GitHub, CI/CD, AWS (S3, EC2), Bitbucket, JIRA, Postman, Insomnia, VS Code, WebStorm, **MS Office**, **Excel**
- **Other:** SEO Optimization, Responsive & Mobile-first Design, SPA Development, WebSocket

WORK HISTORY

Jamtech Technologies Pvt. Ltd. **January 2023 - 24th March 2026**
Software Developer Lucknow, India

Rigmeds (E-commerce Platform)

- **Technologies:** React.js, React Native, Node.js, Next.js, TypeScript, Redux
- Incorporated APIs for real-time product listing, order processing, and order status updates.
- Implemented Redux state management to enhance application scalability, performance, and **API optimization**, and scalable backend services to improve reliability.

Leatt® (Product Showcase & SEO Platform)

- **Technologies:** Vue.js, Nuxt.js, GraphQL
- Built modular and reusable UI components for improved maintainability.
- Focused on SEO optimization, improving website rankings by 15% and increasing organic traffic by 20% through implementation of SEO-friendly practices.

Rehabloop (Real estate)

- **Technologies:** React.js, Node.js, Next.js, TypeScript, Socket.io
- Built and deployed a real-time chat system using WebSocket microservices, **created backend APIs for advanced search filters**, **property management**, and user communication workflows.
- Implemented dynamic property listing, advanced search filters, and SEO-optimized pages using Next.js (SSR/SSG).

Nawin CH (Web Application)

- **Technologies:** Vue.js, Nuxt.js, TypeScript, Firebase
- Integrated Firebase services for authentication and real-time data handling.

QTN Vault (E-learning)

- **Technologies:** React.js, Node.js, Next.js, TypeScript, MySql
- Built a responsive e-learning platform with interactive learning modules and developed secure **APIs for authentication** and user dashboards.
- Ensured mobile-first design, secure authentication, parent dashboards, and performance analytics using React.js, and scalable learning experience.

Molitics Infomedia Pvt. Ltd.

Web Developer
Molitics (News & Media Platform) **March 2022 - January 2023**
Gurugram, India

- **Technologies:** Vue.js, Nuxt.js, Tailwind CSS
- Executed server-side rendering (SSR) using Nuxt.js, improving SEO rankings and increasing organic search traffic by 30–40%.
- Streamlined front-end performance, reducing page load times by 30–40% and improving user engagement.
- Designed responsive, mobile-first layouts using Tailwind CSS.

Mityung Infotech Pvt Ltd **September 2021 – October 2021**
Trainee Noida, India

- Build reusable Angular & Vue.js components (+25% performance).
- Blended MongoDB for backend operations, enhancing query efficiency by 30%.
- Applied agile methodology to complete 20+ sprint tasks and deliver 3 major project milestones on time.

EDUCATION

Bachelor of Technology | Computer Science **2016 - 2020**
H. N. B. Garhwal University, Uttarakhand Srinagar, UK

Senior Secondary (XII) | Science **2014**
Dayanand Saraswati Inter College, Nagal Saharanpur, UP

Secondary (X) **2012**
R. K. P. HSS, Nagal Saharanpur, UP

KEY ACHIEVEMENTS / HIGHLIGHTS

- **About 4 years of full-stack development experience,** building scalable web applications using React.js, Vue.js, Angular, Node.js, MongoDB, and SQL (RDS) in enterprise and startup environments.
- **Boosted user engagement up to 60% and reduced load times by 35%** through responsive UI, performance optimization, and real-time features.
- **Designed and deployed end-to-end applications on AWS,** using GitHub-based CI/CD and AWS (S3, EC3) for frontend (React/Vue/Angular) and backend (Node.js) with RESTful APIs.
- **Delivered scalable backend architecture** with Node.js, MongoDB, and SQL databases, ensuring secure, high-performance data handling.
- **Worked in agile development environments,** using Git for version control and collaborating across cross-functional teams.
